

Learning Sheet - When Science Becomes Child's Play

Name: _____ School/ Centre: _____

1. What are some ways that you can promote curiosity in science through the toys you've observed and played with? Are there any other fairy-tale stories, nursery rhymes and games you can come up with (that works on science)? Jot down your strategies in the box below. Please be prepared to share.

2. Useful teaching strategies and ideas that I have gathered from this workshop.
