

BRIEF DESCRIPTION OF THE PROJECT

The indoor learning environment was extended to include the outdoor space. The intention was to provide children with more learning opportunities to engage in purposeful play.

OBJECTIVES OF THE PROJECT

- Refurbish the school's outdoor environment.
- Extend the indoor learning environment.
- To increase children's repertoire of purposeful play.

PROCESSES OF PROJECT

- Conducted brainstorming sessions for ideas.
- Worked with teachers to design the outdoor learning space and set up learning centres.
- Discussions with children on the different learning centres.
- Gathered feedback and learning points from teachers and children.
- Conducted critical review with the Project Team.
- Developed strategies to further improve the outdoor learning centres.

OUTCOMES AND IMPACT

- PRAISE dispositions can be further nurtured in meaningful context.
- More opportunities for children to engage in purposeful play.
- More opportunities for children to build confidence, strengthen language and literacy as well as critical thinking skills.
- Children learn to negotiate, cooperate and respect each other.

SUSTAINABILITY

- Teachers see benefits about learning outdoors and confident in designing outdoor spaces.
- Resources changed regularly to sustain children's interest and engagement.
- Recycled materials or donated articles are used to reduce financial burden.
- Tapping on parents as partners and resource-providers.
